

Paradise[®]

Signature Sauce. Signature Service.

Ensuring Food Safety From Our Field to Your Table

When it comes to providing you with only the safest, highest-quality signature sauces, we believe there's no room for chance. For this simple reason, we're fully committed to the strict implementation of all programs, procedures and policies - every step of the way.

A Robust Food Safety & Quality Program You Can Trust

- Paradise specializes in high acid and low pH shelf stable foods.
- Our vine-ripened tomatoes originate from non-GMO seeds and are grown in sunny California fields.
- All Paradise facilities are GFSI certified, earning the highest possible rating (AA) against the BRC audit standard.
- Food safety and quality attributes are consistently monitored throughout our production cycle.
- We employ multiple technologies to reduce and eliminate hazards in our products, including but, not limited to, metal detection and x-ray imaging.
- Our packaging materials do not contain BPA.
- We have full capability to trace all raw material and finished goods from source to final destination.
